

UPPER KLAMATH LAKE

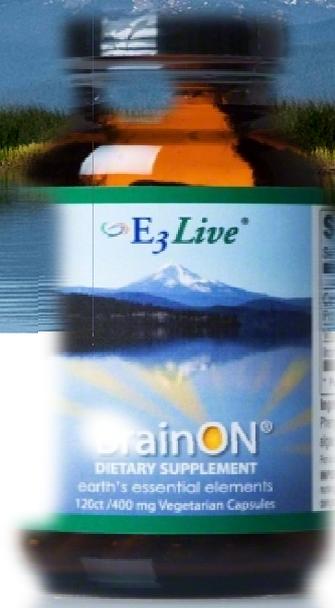

E3LIVE

"THE MOST VITAL WILD-GROWN SUPER FOOD ON THE PLANET!"

Upper Klamath Lake is a mountain lake located in Klamath County, Oregon, USA. This pristine location is free of adverse bacteria, heavy metals, pesticides, herbicides, insecticides and fungicides. The lake receives an average 300 days of sunlight per year which provides a perfect growing environment for the world's richest strain of wild edible blue-green algae, scientifically known as Aphanizomenon flos-aquae or AFA for short.

AFA is a species of blue-green algae; the very foundation of the entire food chain. Nutritionally, E3Live provides 65 vitamins, essential fatty acids, active enzymes, amino acids, minerals, proteins, complex carbohydrates, & phytochemicals. It is the most nutrient dense food known to mankind and a rich source of chlorophyll. E3Live is a gift of nature, a miracle food.

It has been eaten for centuries by indigenous peoples and for the first time in history we can now all enjoy the benefits of this amazing plant ... thanks to E3Live. There's only one ingredient in E3Live, and that's 100% Aphanizomenon flos-aquae (AFA).

E3BRAINON IS A SUPER CONCENTRATED FORM OF ORGANIC AFA.

It is for anyone who wishes to balance mood & increase concentration, while functioning at a higher level.

E3AFA

Physiologically, E3Live® helps restore overall body/mind balance in numerous ways. It contains Phenylethylamine (PEA) & Phycocyanin. PEA is also found in raw chocolate and is known as the love molecule. Phycocyanin a potent natural COX-2 inhibitor and antioxidant.

All of these products are available as powder, capsules or fresh frozen liquid.

"E3Live is the freshest and by far the best AFA on the market! I recommend E3Live over any other algae. Test and be convinced!"

**David "Avocado" Wolfe - Health, Eco, Nutrition and Natural Beauty Expert
Lead educator and presenter at the Institute of Integrative Nutrition, and the Body-Mind Institute.**

BLUEMAJIK - NATURAL PHYCOCYANIN-RICH EXTRACT

Phycocyanin is a powerful antioxidant with the ability to quench free radicals. It is a potent COX-2 inhibitor (anti-inflammatory).

E3Live is 100% Certified Organic (ACO). Organic certification can be a lengthy and complicated process, and it is achieved only through strict compliance with established official regulations. Requirements involve a stringent set of production standards for growing, storage, processing, packaging, and shipping.

As with anything concerning your health, it is best to consult with your healthcare professional prior to consuming E3Live or E3AFA if you have any concerns regarding your health or a specific medical condition.
